Food Vendors: Please make sure to review [Thurston County Public Health and Social Services website](#) about **obtaining a Temporary Food Permit**. “Individuals or groups planning to sell or give away food at a public event are required to obtain a current Temporary Food Service Permit. Temporary event food service requires flexibility and consideration to protect public health. Booth construction, equipment setup, personnel hygiene, food preparation location(s), and food safety practices must be planned carefully. This guide should assist temporary food operators and their employees meet food safety requirements and minimize the potential spread of foodborne illness while operating food service at organized public events. While the same food handling and sanitation practices apply at a temporary food facility, as at a permanent food facility, there are some differences. Several of these differences are addressed in this temporary food operator’s guide.”
